

Whisper

Example

You don't have to whisper
You don't have to whisper, no more
Just scream and I'll hear you in heaven
Scream and I'll hear you in hell

You don't have to whisper
You don't have to whisper, no more
Just scream and I'll take you to heaven
Scream and we'll light up the world
If we can make the whole world hear us
Then we can see the whole world changing
I wanna make the whole world hear us
You got me so crazy
If we can make the whole world hear us
Then I can see the whole world changing
I wanna make the whole world hear us
You got me amazing

You don't have to whisper
You don't have to whisper, no more
Whisper
Whisper, no more

Scream and I'll take you to heaven
Scream and I'll light up the world
Scream and I'll light up the world
Scream and I'll light up the world
Scream and I'll light up the world

You don't have to whisper
You don't have to whisper, no more
Just scream and I'll hear you in heaven
Scream and I'll hear you in hell

You don't have to whisper
You don't have to whisper, no more
Just scream and I'll take you to heaven
Scream and I'll light up the world
