

# Black Witch

Exciter

High on the mountain she calls my name  
Evil woman wants to mess with my brain  
Darkness and sorcery til I die  
Stop what you're doing  
I'm just a man  
don't believe in your powers, woman  
Black Witch descendant of hell  
Woman of the grave  
I'm not the man for you  
you don't take me as your slave

At night feeling lonely cry for the only  
I would cry for the sun  
Black Witch would take me  
dragging me under I don't want to go and run  
Fire ignites heat of the night  
crying out with the pain  
Black Witch would take me  
dragging me under  
I don't wanna go insane

Black Witch  
sucking the blood from my heart in your evil  
Black Witch  
filling my head with your spells til I'm dead

Dragging me far  
circles and stars in the evil of the fight  
Black Witch would take me  
dragging me down in the black of the night  
Evil would take me  
blacken my eyes in the deepest of her hate  
Black Witch would take me  
dragging me under in the midst of her hate

Black Witch  
sucking the blood from my heart in your evil  
Black Witch  
filling my head with your spells til I'm dead

At night feeling lonely cry for the only  
I would cry for the sun  
Black Witch would take me  
dragging me under  
I don't want to go and run  
Fire ignites heat of the night  
crying out with the pain  
Black Witch would take me  
dragging me under  
I don't wanna go insane

Black Witch  
sucking the blood from my heart in your evil  
Black Witch  
filling my head with your spells til I'm dead

High on the mountain she calls my name
