

Evil Omen

Exciter

Evil omen
Face anger
At the end of time
Phantom lies
In the pit of the crucified
Face the terror
Of troubled lands
Phantom lies
In the pit of the crucified
Evil omen
The baron reigns
He spews his rot
Banished
Are the creatures of the night
Tales of torture
Rise again
Shadow souls
Rip the life from the innocent
Evil omen

Evil omen
Tales of gore
Cast a spell
The booming voice
Of the dark prince fills the air
Night stalker
In shadows he hides
The final prayer
For the one chosen to die
Evil omen
The black hand of hell
Burning cross held in hand
The black hand of hell
Grinding flash across the land

The black hand of hell

The black, the black
The black hand of hell!
