

# Feel The Knife

Exciter

In the mist of blackest nights  
We rule the streets  
Cover ??? ???  
Hell, dead on your feet  
We'll meet you anywhere, any night  
We'll bring you bloody  
dreams and death, turn on  
the fright  
Just when you think you're safe  
You're in the clear  
You'll hear our screams  
of battle ringing in  
your ears  
Feel the Knife  
From the cities, from the hearths  
We will emerge  
We rule under one force,  
hear our words!  
The one to finally die  
By the Death Revenge  
We hold the burning blaze  
and power to the end

Just when you think you're safe  
You're in the clear  
You'll hear our screams  
of battle ringing in  
your ears  
Feel the Knife  
Yeah, the Knife!

In the mist of blackest nights  
We rule the streets  
Cover ??? ???  
Hell, dead on your feet  
We'll meet you anywhere, any night  
We'll bring you bloody  
dreams and death, turn on  
the fright  
Just when you think you're safe  
You're in the clear  
You'll hear our screams  
of battle ringing in  
your ears  
Feel the Knife  
Feel the Knife  
The Knife  
Feel the Knife  
The Knife  
Feel the Knife  
The Knife
