

# HellFire

Exciter

My blood runs cold  
As I lay undead  
The spike that struck  
My severed head born again

Inflicted wounds  
Have scarred my race  
I have the right  
To challenge my fate

Hellfire

Beyond the stairs  
Of heaven and hell  
I cross a world  
Of decaying corpses rise again

Hellfire

Trapped inside  
The gated walls  
I wait in peace  
To be born again

Hellfire
