

## Mistress of Evil

Exciter

She's a killer, she's out to get you  
You're a victim - her prey  
She's got a deal with the devil  
to sacrifice the lives that live forever  
Searchin for a virgin  
blood thirsty lust takes over control  
Terror, you yearn to flee  
from the grip of her tyranny

We touched the sky  
We never lived to wonder why  
She came from hell to burn the sky  
She came from hell to see us die - ya die

Mistress of evil  
Mistress of evil  
She's comin to take you away

Her shadow surrounds you  
as you fall into her venomous clutch  
Chained up in darkness you never thought  
of death could hurt this much  
Her feel and fiery breath,  
her blackness brings at last your final day  
Four shoots from her fingers,  
there in a pool of blood you lay

And there she stands in her skeletal shape  
She cannot win what she cannot take  
But she took your soul against your will  
And she'll be back again to kill !!
