The Law by Exhorder
"Do What Thou Will, Shall be the Whole of The Law"
Aliester Crowley
There's a fire burning inside.
And you Barely stand on two feet.
There's Scars arranged all over you,
I'm governing my needs.
I
Hear an ego bleeding.
Regarding your thoughts
in intrepidity.
I
I'm in progression.
While you Regress
In Idolitry.
I'm Reading what i want to read.
You Read what you're expected to.
I'm Thinking what I want to think.
As your mind denies the TRUTH.
I don't need your elections
I don't need your systems
I don't need your Deities to Purge me.
What's so wrong with craving?
Satisfy Instinct.
Homo Sapien.
You want to Shit, Eat, Fuck, and Sleep....
It's Law vs Law.
I want to walk the streets with my genitals
bouncing free, But you "law" cuts me loose
Takes me away.
'Cause I'm hung better,
And if i'm not he be'd to scared to prove it.
That proof is all I need.
It's gonna infiltrate your sectors
And the young adults that you've failed to raise
Already know the score.
And in one solid blow
We Will Crush Religion and Politics.
And your mind denies the Truth.....
