

## Caseating Decomposition

Exhumed

Splattered tumors reek, guts turn to cheese  
Dry festered entrails, withered caseating carnage...

Moldy septic boils are munched,  
Cankered, suppurating gore is devoured...

Mashed, ground, and bleeding  
Pyosisified, torn, and seeping  
I lick your rupturing carbuncles  
and taste your pyorrheic scabs...

A festering disemboweled torso remains  
As I gleefully munch on your decomposed brains -  
Your genitals I hack and mangle...

I crudely tear open your body cavity  
Ruptured organs splatter chyme  
I gorge myself on your rashes  
And feast on the sticky rectal grime...
