

## Infester

### Exhumed

Your abdomen punctured just beneath the chest  
To access the gizzards he soon will infest  
This gurgling oblique aponeurosis is split  
By an influx of pathogens through the hypogastric slit...

INFESTER (4x)

Your entrails reviled as they`re plagued and infected  
By diseased bacteria he has injected  
Forced to play host to neurotropic grime  
Your innards now plagued with pathogenic slime...

INFESTER (4x)

Organs sputter and spasm drowned in the cess  
Sphinctral vlaves clogged by this viral excess  
Your abdomen bloats with virulent eruption  
Discontented intestines crepitating in corruption  
Eaten from the inside out your life`s being consumed  
Festered rot in your guts turns your body to your tomb...

His handiwork your funeral, he watches with a laugh  
Sardonic smile across his face as you wretch your epitaph...

Within yourchruning belly necrosis necrosis spreads and thrives  
An excruciating way to die: Infested alive!!!
