

## Pyathrotic Discorporation

Exhumed

As your dismembered duodenum is ripped  
Your ulcerative abraded innards are split  
Gurgitated entrails now slush  
Putrefacted bowels gurgle and flush  
Mutilated epigastric papillae  
A sickening mangled carcass I now emasculate

Exulcerated intestines, disfigured and dismembered  
Grotesque exenteration, necropyomorphic detruncation

Sanguined guts stewing, gastrium in shreds  
Abdomino-eradication, innard maceration

Chop up the intestines, rancid offal festering  
Your innards brutally thrashed, your torso collapsed  
Disarticulated gore, your innards shredded and warm  
Infectious dislocated scabs, your cavities brutally trashed

Pulpy visceral shreds, shredded carnage and bits of flesh  
Disgustingly mangled and ablated, you are utterly disincarnated
