

All in Vain

Exilia

Do they believe? Do they deceive?
When they tell me "it's alright"
They closed their eyes
But I can't hide the guilt within my soul
Inside my head, inside my head
These enemies!
There's something wrong,
Something wrong with me ...
Losing my faith, digging into pain
Losing my faith, I'm so faint
Don't see any reason why, I should care about my salvation
Give me just one reason for, why I see children dying of starvation
Searching for a reason why can be proud of myself when it is
All in vain
All in vain
Apologies, apologies
You betray yourself once more
Justify it's half a lie
When you say you had no choice
Inside my head, inside my head
They scream at me!
There something wrong, something wrong
Losing my faith, digging into pain
Losing my faith, I'm so faint
Don't see any reason why, I should care about my salvation
Give me just one reason for, why I see children dying of starvation
Searching for a reason why can be proud of myself when it is
All in vain
All in vain
Have we been forsaken?
Have we been forsaken?
God have you forsaken,
God, have you forsaken me?
Don't see any reason why, I should care about my salvation
Does anybody care to know, how many people die of starvation
Searching for a reason why can be proud of myself when it is
All in vain
All in vain
