

## Satellite

Exilia

One more ride  
One more round  
Waiting for the end  
What's it like?  
Looking for  
For your eyes  
Will you help me through,  
Through this night  
Watch over me  
Over my liberty  
Watch over me  
Over my enemy  
Satellite  
My satellite  
Wake me when it's over  
'Cause I realize it's over  
'Cause I feel so far from cover  
'Cause I hear their bombs  
One man's down on the ground  
While a mother cries for her child  
Silence falls through this night  
Will you help me when it's all done  
Satellite  
My satellite  
Wake me when it's over  
'Cause I feel this world is over  
'Cause I feel so far from cover  
'Cause I hear their bombs  
Pray for my soldiers  
Pray for their soldiers  
Watch over me  
Over my family  
Watch over me  
Over my enemy  
Satellite  
My satellite  
Wake me when it's over  
'Cause I realize it's over  
'Cause I feel so far from cover  
'Cause I hear their bombs
