Exilia

One more ride
One more round
Waiting for the end
What's it like?
Looking for
For your eyes
Will you help me through,
Through this night
Watch over me
Over my liberty
Watch over me
Over my enemy
Satellite
My satellite
Wake me when it's over
'Cause I realize it's over
'Cause I feel so far from cover
'Cause I hear their bombs
One man's down on the ground
While a mother cries for her child
Silence falls through this night
Will you help me when it's all done
Satellite
My satellite
Wake me when it's over
'Cause I feel this world is over
'Cause I feel so far from cover
'Cause I hear their bombs
Pray for my soldiers
Pray for their soldiers
Watch over me
Over my family
Watch over me
Over my enemy
Satellite
My satellite
Wake me when it's over
'Cause I realize it's over
'Cause I feel so far from cover
'Cause I hear their bombs
