

## Speed of Light

Exilia

Oh my god, oh my god, I'm insane  
Nothing works, you know  
But everyone seems safe  
They control, everything is a static scene  
Is this all, at all? I need more than what I see  
Have you got a chance, have you ever found a reason?  
Before you can forget  
Have you got a chance, everybody gotta need to know  
Is there something to believe?  
Now, there's nothing I can change  
I need the speed of light  
Nothing I can save,  
No less than the speed of light  
Dream another place  
Away  
Away  
Oh my god, oh my god, I'm insane  
Time's too short, you know  
And someone I want to be  
Gets no choice, forgetting my reality  
Need to know, you know, if everything is destiny  
Have you got a chance, have you ever had a reason?  
Collapse into myself  
Have you got a chance, everybody gotta need to know  
Where eternity begins  
Now, there's nothing I can change  
I need the speed of light  
Nothing I can save,  
No less than the speed of light  
Dream another place  
Away  
Away  
Away  
Nothing I am now,  
I need the speed of light  
Nothing I can save,  
No less than the speed of light  
Nothing I can change  
I need the speed of light  
Dream another place  
Away  
Away  
Away
