

I break the rules and Im alone
Intoxicated by your sacred words
And Im nothing,
She took that step she never knew
No dreams came true and now she is gone
And Im nothing, Im nothing can do nothing in this tragedy
Where are you,
No answer Im lost in disaster
I cross myself and tell you
Im nothing once again
Im nothing once again
She died alone before her time
A starseed lost in this world of mine
Don't want to talk
Don't want your love
Its my conclusion in this spiral of words
And Im nothing, Im nothing can do nothing in this tragedy
Where are you,
No answer Im lost in disaster
I cross myself and tell you
Im nothing once again
Im nothing once again
Last rites
Candles
I need
An answer
She danced
She walked
She Loved / she left
This world
And Im nothing, can do nothing, nothing in this tragedy
(Chorus)
