

Forbearing glances to one to one  
It was, the best talk we've had in a while  
I'm confused, constant change of mind  
Can't you give me something  
Make this easy

Do whatever you wish with your life  
And you were my saviour wasting my time  
And now I'm buried  
Are you happy  
You re-entered my desolate life  
You claim what you want but dissatisfied  
You turn your back  
Deny all the facts

Expose yourself to the fear  
I dent the truth, it's not welcome here  
Darkness, grace, all I can convey  
Is the numbness I feel, sorrow with me

Do whatever you wish with your life  
And you were my saviour wasting my time  
And now I'm buried  
Are you happy  
You re-entered my desolate life  
You claim what you want but dissatisfied  
You turn your back  
Deny all the facts  
Deny all the facts

Silence reigns in my mind (silence reigns)  
Silence reigns in my mind (silence reigns)  
Silence...  
Silence...

Do whatever you wish with your life  
And you were my saviour wasting my time  
And now I'm buried  
Are you happy  
You re-entered my desolate life  
You claim what you want but dissatisfied  
You turn your back  
Deny all the facts
