

# Kneel Before the Steel

Exmortus

Stand your ground  
Fear the mighty ones  
You must obey

Hurricane of piercing death  
Maelstrom eats terrain  
Avalanching firestorm  
Titans here to reign

Screaming metal  
Molten blood  
Kneel before them  
Kneel before the steel

Slay the weak  
Bring them to the ground  
You must obey

Feel the steel rip the flesh  
Thunder roams the sky  
Bones are crushed and heart's collapse

Bathed in blood you die  
You die

Rising shadows  
Metal Gods  
Kneel before them  
Kneel before the steel

Colossal doom approaches  
Titans have arrived  
Enslaving all before them  
God failed to save  
He lied

Screaming metal  
Molten blood  
Kneel before them  
Kneel before the steel
