

Lie to Me

Exploited

Vote for me is what they say
But what have you done for me
They'll tell you fucking anything
A vote is what they want from me

They lie to you
They lie to me
They lie to you they lie to me
What can you fucking say

Shake my hand kiss my arse
What do you want from me
Different party's different views
It's all the fucking same to me

They lie to you they lie to me
They lie to you they lie to me
What can you fucking say

They lie to you they lie to me (4x)

A load of wank is what I hear
When you preach to me
Every fucking policy
It's all just shit to me

They lie to you they lie to me (6x)
What can you fucking say
