War

sometimes i want to borrow  
watching violence, after fights  
can she go to war tomorrow  
to guarantee his rights

War war we don't need a war ...

you must be mad  
that you sent us to war  
i said if you sit down  
we don't need to go to war

War war we don't need a war ...

down the west in the crowd  
with those of you who'll go  
we're looking for a slag  
something to give us a fall

whenever we get in a cage  
surely it does count  
he's going to start a war  
no one can survive

War war we don't need a war ...
