

Let Me Be the One

Exposé

Sometimes people play with love
falling in love is just a game.
Don't think I don't know love
you'll never be alone again.
Let me (show you how I feel)
be the one
that I need so much.
Let me give you (warmth and thrill)
be the one
that I long to touch.
Only you can make me feel this way
I'll give you all come on lets get away
it sometime never ever ever pays
I'll give you more and more so.
Let me
be the one (to hold on to the dream)
let me
be the one (you can trust me at anytime)

Let me
be the one (to give you all the love)
let me
be the one (to feel your tender touch)
First time that I saw you there
thought I knew you from before
Promise me you will never leave
cause I will never let you go.
Let me (hold you close to me)
be the one (because our love is strong)
Let me (feel the need in me)
be the one (together we belong)
Only you can make me feel brand new
I can feel it in my heart your love
is true.
Together we are one instead of two
I want you more and more so.
Let me
be the one (to hold on to the dream)
let me
be the one (you can trust me at anytime)
Let me
be the one (I want to give you all the love)
let me
be the one (and be the one)
Only you can make me feel this way
I you give all come on lets get away
It sometimes never ever pays
I'll give you more and more so
Let me
be the one (to hold on to the dream)
let me
be the one (you can trust me at anytime)
Let me
be the one (to give you all the love)
let me
be the on (and feel your tender touch)
Let me

be the one (oh to hold on to the dream)
let me
be the one (you can trust me at anytime).
