

In It For Life

Extreme Noise Terror

Grew up with punk, meant so much then
A way of life, but you changed your mind again

Are you in this for life or just for today?
Are you in this for life or just to pose?

Hawkwind and acid, a new way of life at last
Fuck the present let's live the past

Well we're just people looking for a way to end the
hardships, the problems of today
We're still thinking the way we did then and our movement
starts to splinter
Our dreams go out of range, become another false product
which can never bring change

Reliving the past won't right the wrongs
Instant relief at the toke of a bong
