

## Raping The Earth

### Extreme Noise Terror

"Man" is superior, "Man" has the might  
he's under the impression he has the right  
to take the earth and do as he will  
and leave nothing but a deformed hell  
raping the earth and we don't seem to care  
soon there will be no life left here  
with such stupidity we are raping the earth  
it's been on the decline since man's birth  
the harmony of nature is being upturned  
compassion not destruction must be learned
