Don't just sit there  
And stare at me  
Don't just sit there  
And watch me bleed  
I'm losing you and you  
You're losing me  
I'm tired  
Of what we are  
I'm tired  
Of all the pain  
I'm losing you and you  
You're losing me

Face lies flat  
I see my reflection  
Download thoughts  
But your files

I'm losing you  
And you

Time stands still  
And your frozen  
In motion  
I held down  
Your escape  
But you're crashing
