

I Want You To Meet My Baby

Gorme, Eydie

I, I, I want you to meet my baby
I know that you just
Won't believe your eyes

I, I, I want you to meet my baby
So you'll know that I ain't
Been telling lies

Bet you never thought
That he'd be so good looking
Bet you never thought
That I'd get such a prize

Don't his smile
Just drive you crazy

In a million ways
He's just too much
You can look but don't touch

I, I, I want you to meet my baby
So you'll see why I'm
Walking on a cloud

I, I, I want you to meet my baby
So you'll know why I
Want to shout out loud

He's mine and I love him so
And I don't mean maybe
He's mine, all mine
And I can't help feeling proud

So if you start dreaming of him
Just remember, I love him
You can look but don't touch, yeah

I, I, I want you to meet my baby
I, I, I want you to meet my baby
I, I, I want you to meet my baby
