

Beyond The Stars

Eye Empire

Never live like you're afraid
We're the ones that create pain
Calm your breath
Let go of loss
It was never there to lose
It's true
Never live like you're afraid

There comes a better day

Beyond the stars tonight
I found the answer
We are the stars at night
We are the stars at night

We underestimate our strength
Others tell us what we think
Close your eyes
And feel the truth
It will never steer you wrong
It's true
All you need resides in you

It brings a better day

Beyond the stars tonight
I found the answer
We are the stars at night
We are the stars at night
