

Feels Like I'm Falling

Eye Empire

Before I hit the ground
Some assistance here is welcome
I could of used it yesterday
and through the years I've stumbled
no longer see the light
(I long to see the light)

I can weather the storm
but can I tear down the walls
around me?

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down
Right before I hit the ground

My newfound strength unyielding
it battles back the pouring rain
The ground beneath me crumbles
No longer see the light

I can weather the storm
but can I tear down the walls
around me

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down

I'm not looking for forgiveness
I don't need your sympathy
I've already lost it all

I wanna feel alive today
I don't wanna waste my life away
No
Feels like I'm falling
I wanna push the fear away
I don't wanna live my life this way
No
Feels like I'm falling
Falling down
