

# Ignite (Moment of Impact)

Eye Empire

Dead  
In my sights  
Crucified  
Eternal life

I blame  
This twisted game  
Unrivalled shame  
Beyond the fame

We're hypnotized  
In this fast approaching  
You better run for your life

Ignite  
Burn the skies  
Take the life from your eyes  
Yeah

I'll fight  
On the Edge  
Push to Red  
Beyond this line

I'll burn  
From within  
My every sin  
Will come to light

We're hypnotized  
In this fast approaching  
You better run for your life

Ignite  
Burn the skies  
Take the life from your eyes

Ignite  
Burn the skies  
Take the life from your eyes

(Buried deep down inside)

Inside... !

[Guitar Solo]

Ignite  
Burn the skies  
Take the life from your eyes

Ignite  
Burn the skies  
Take the life from your eyes

(Buried deep down... !)
