

Moment

Eye Empire

May I have a moment to reflect,
a moment where I can regress.
May I have a moment just to be myself.
May I have a moment to believe,
a moment no one sees but me.
May I have a moment where my leaves are green.

It's all in the way we view ourselves...

Don't be just anybody.
Don't be so victimizing.
If you want out you should get out now.
But you won't because you don't know how. (2x)

Any given moment we could lose,
the perfect chance to start anew.
Any given moment we could see the truth.
Any given moment there's a chance,
a chance to recognize mistakes.
And make the best of every moment left.

It's all in the way we view ourselves...

Don't be just anybody.
Don't be so victimizing.
If you want out you should get out now.
But you won't because you don't know how. (2x)

Ache away (you're the only one who wants the pain).
Strip away (take away).
Play your games (as you miss the point again).
Ache away.
Strip away.
Play your game.

It's all in the way we view ourselves...

Don't be just anybody.
Don't be so victimizing.
If you want out you should get out now.
But you won't because you don't know how. (2x)
