

## Perfect Images

**Eyefear**

This is the time, this is the place  
Memories of childhood written upon your face  
A distant voice is calling and whispers on the wind  
An icy hand wraps around your soul

Open your mind  
Turn your anger away  
Find your light in the dark  
And just be you forever more

Frozen in time, shadows from your past  
Visions fading from view  
Regret has taken its toll  
Leaves a wound in your soul  
Shattering perfect images  
Revealing what's true

Open your mind  
Turn your anger away  
Find your light in the dark  
And just be you forever more.
