

## Infected

### Eyes Set to Kill

I think you've been infected  
Take all of the pain  
All of the pain and regrets  
Don't ever return  
Now, now that I am reckless  
I'm giving away, giving away your secrets  
Just to watch you burn

How does it feel on the outside  
Looking inside  
Do you feel rejected  
I watch you to see that I was right  
On the inside  
You're the one infected  
You're the one infected  
You're the one infected

I'm numb to your affliction  
You're running away, running away  
You get what you deserve

Now, now I'm feeling viscous  
Giving away, giving away your secrets  
Just to watch you burn

How does it feel on the outside  
Looking inside  
Do you feel rejected  
I watch you to see that I was right  
On the inside  
You're the one infected  
You're the one infected  
You're the one infected

How does it feel on the outside  
Looking inside  
Do you feel rejected  
I watch you to see that I was right  
On the inside  
You're the one infected  
You're the one infected  
You're the one...  
You're the one infected
