

Where I Want to Be

Eyes Set to Kill

I live under conditions
I can't escape
In need of a change of pace
I don't want to be careful or play it safe
I want to be reckless with you
I don't know what I'm used to
I don't know what I was yesterday

Don't want a part of you, I want everything
You're where I want to be
Don't want to bother you if you won't remain
The better part of me

I live under the pressure
of my own fate
I'm ready for things to change
I don't want to be careful or play it safe
I want to be reckless with you
I don't know who I'm used to
I don't know what I had
I don't know who I'm used to
I don't know who I was yesterday

Don't want a part of you, I want everything
You're where I want to be
Don't want to bother you if you won't remain
The better part of me

You're where I want to be
You're where I want to be

I want to live under your conditions
I want to live under every word you say
I want to live under your conditions
I want to live under your conditions
I want to live under every word you say
I want to live under your conditions
I want to live under every word you say
(under every word you say)

Don't want a part of you, I want everything (everything)
Don't want a part of you, I want everything
You're where I want to be
You're where I want to be
