

## Young Blood Spills Tonight

Eyes Set to Kill

Sip my blood till there's no blood left to spill  
From my neck embraced by a concealed grip I welcomed in my arms

Bruised by your love  
Burned by your kiss  
Is this true love?  
Bruised by your love  
Burned by your kiss

Young blood spills tonight  
This time the victim is you  
Poison lips, the ones you kiss  
I swear my love for you is true  
Young blood spills

Now there I sing my deadly lullaby  
Bruised by your love  
Burned by your kiss  
Is this true love?  
Bruised by your love  
Burned by your kiss  
Is this true love?

Now there I sing my deadly lullaby  
Now here I sing to hypnotize your body  
Now there I sing my deadly lullaby  
Now here I sing to hypnotize your body  
We bled that night till drained  
You drank me dry i did the same  
We bleed this night till drained  
This cold  
We bled that night till drained  
You drank me dry i did the same  
We bleed this night till drained  
This cold night
