

## Paid To Listen

F-Minus

A uniform a labor force  
A transformation will take by storm  
It's invading a transformation  
That generates hatred  
You want the lion's share  
You're not the exception  
You're pointing finger in every direction  
Stop complaining. i'm not being paid to listen  
I'm sick of your droning voice  
Start taking the blame for your conscious choices
