

# Survival

F-Minus

This is survival wearing you down  
Stripping your mind killing your time  
This is survival right to the end  
Losing your grip you can't pretend  
This is survival - staring you down  
This is survival lord of this slum  
Time to pay up nowhere to run  
This is survival, not politics  
Beyond transgression, beyond all of this  
This is survival - staring you down
