

## The Mind

F-Minus

Destruction is the name of the game  
Set your sights on everything  
Delusions - walls closing in  
Cross the line and back again  
Disorder - your life is a mess  
Slash your arms to relieve the stress  
The pressure can't take anymore  
Put your fist through the bathroom door

Your mind - breaking the code  
Your mind - breaking away  
Collapsing under its own weight

Obsession with a negative trend  
Is it the beginning or is it the end  
Obsession - don't need any help  
Don't need you to save me from myself
