

Describing the Emptiness

F.O.B.

Describe your emptiness
Hopeless feelings in changing
Conflict of negative events turning off your light
Stop your drops of blood
Stop every voices you can scream
This is the matter of no question why
When, what for, where and who you are
And who do you suffer for
Look at your torture, look at your torture
Stay with staring eyes

Describe your emptiness

Screaming the truth out of your mouth
Into ears that want to hear
Your confession
But the hand is still pushing you to the death

Sink down to the emptiness
Where feelings have changed
Into nothing that can't
Support your life light no more
