

## Land of Markets

F.O.B.

Eyes carefully observe their kill  
face and body are motionless  
consistently consider opportunities  
when attack the kill.

today or tomorrow  
we just carefully observe  
opening time of our shop  
senses are full of offers.

lands of markets are endless  
as the chance for trading  
biggest discounts suck life  
where it doesn't hurt

are there any rules?  
are there any limits?  
profit is another nail to coffin  
what will be at the end?  
and who will be there?
