

Reality

F.O.B.

nobody loves you
all is only simulation
they want you to tell the truth
what they want to hear
but is this the truth?
lies which everybody use
to confirm their speeches
people don't let the truth
refuse and fear about it
reality is sometimes too awful
slanders coming down
hard to defend
be never mattered shadow
hear wisdom of others
better live like shadow
let your heart is slain
use your eyes, use your ears and know
sentence which judge doesn't know
you are judging instead of him
passing other sentences
without success to change reality
reality is sometimes too awful
