

## 24 Story Love Affair

Faber Drive

When I met you  
You told me  
To forget you  
Your way out of my league  
But it happened  
A break through  
A disaster was ready to be unleashed

Look out, look out, look out, look out  
I'm crashin'  
Look out, look out, look out, look out  
To what's coming at me again

I know the end is comin'  
So scared of heights it's numbing  
24 story love affair  
With me down here and you up there  
I know it's all but over  
I wish that last kiss would've lasted longer  
24 story love affair  
With me down here and you up there  
With me down here and you up there

You were towerin  
Above me  
Started climbing  
And never though it through  
But you warned me  
Should've listened  
Now I'm sorry  
I ever met you too

Look out, look out, look out, look out  
I'm crashin'  
Look out, look out, look out, look out  
To what's coming at me again

I know the end is comin'  
So scared of heights it numbing  
24 story love affair  
With me down here and you up there  
I know it's all but over  
I wish that last kiss would've lasted longer  
24 story love affair  
With me down here and you up there

I know the end is coming  
So scared of heights it numbing  
24 story love affair  
With me down here and you up there  
With me down here and you up there

I know the end is comin'  
So scared of heights its numbing  
24 story love affair  
With me down here and you up there

I know it's all but over  
I wish that last kiss would've lasted longer  
24 story love affair  
With me down here and you up there  
24 story love affair  
With me down here and you up there
