

Sex and Love

Faber Drive

Pumpin' on my sleeve
Heart that barely beats
Stallin'
Uh oh
Floating face down
Seas of broken vows
Drownin'
Uh oh

Blow after blow and I'm startin to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right through
Sex and love don't feel the way I do
Sex and loves not real when it's from you

Solely for effect
Morning make up sex is hollow
Uh oh
Burning to the ground
House that used to stand so solid
Uh oh

Blow after blow and I'm startin to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right though
Sex and love don't feel the way I do
Sex and loves not real when it's from you

Blow after blow and I started to why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right through
Sex and love don't feel the way I do
Sex and loves not real when it's from you
Sex and love don't feel the way I do
Sex and loves not real when it's from you
Sex and love don't feel the way I do
Sex and loves not real when it's from you
