

Love Me Or Leave Me

Fabrizio Faniello

You gotta love me - love me or leave me
You gotta love me, say that you need me

I need to know what you are waiting for,
Which way to go
'Cause I need more than just a kiss of you
To make it through

I've never been allowed to wait
And I need more than this to stay
Still I'm waiting here for nights and days
I think it's time to play this game

You gotta love me - love me or leave me
Give it a try if you wanna be mine
You gotta love me, say that you need me
Our love's gonna fly when you make up your mind
You gotta love me - love me or leave me

I've been around but there's no one I've found
To turn me on
Impatiently my heart is asking me
To stay or leave

There is nothing else for me to do
I have to keep it up and wait
Still so many things I wanna say
Just get it done and let it flow

You gotta love me - love me or leave me
Give it a try if you wanna be mine
You gotta love me, say that you need me
Our love's gonna fly when you make up your mind
You gotta love me - love me or leave me
Give it a try if you wanna be mine
You gotta love me, say that you need me

Leave me or love me all night
(Leave me or love me all night)
Love me or leave me tonight
(Love me or leave me tonight)
You gotta make up your mind
'Cause I can't wait no more

You gotta love me - love me or leave me
Give it a try if you wanna be mine
You gotta love me, say that you need me
Our love's gonna fly when you make up your mind
You gotta love me - love me or leave me
Give it a try if you wanna be mine
You gotta love me, say that you need me
Our love's gonna fly when you make up your mind
Say that you need me.
