

Love On The Radio

Fabrizio Faniello

Everytime I wanna tell you what I'm feeling
Something happens and my heart starts concealing
So many words - so many ways
Now I'm writing you this song and it's time that you hear me play
Just let it play

I just wanna let the whole world know
And sing it everywhere I go
I just wanna let the whole world see
What you mean - what you mean to me
I just wanna let the whole world know
I could never let you go
I just wanna let the whole world know
Hear my love on the radio

Badadada...
Hear my love on the radio

Everything about your love has me believing
Wanting you is just as easy as breathing
So many words - so many ways
Now I'm writing you this song and it's time that you hear me play
Just let it play

I just wanna let the whole world know
And sing it everywhere I go
I just wanna let the whole world see
What you mean - what you mean to me
I just wanna let the whole world know
I could never let you go
I just wanna let the whole world know
Hear my love on the radio

Badadada...
Hear my love

Badadada...
Hear my love on the radio

I just wanna let the whole world know
And sing it everywhere I go
I just wanna let the whole world see
What you mean - what you mean to me
I just wanna let the whole world know
I could never let you go
I just wanna let the whole world know
Hear my love on the radio
