

Do You Care

Face to Face

do you want to make a difference?
do you wonder what would happen if you don't?
do you need just a little push?
do you try to change?

do you THINK about the other guy?
do you want just one good reason why you should?
do you only think about yourself?
do you want to be left alone?

you're running out of time
and I don't see a change in you
and I don't think you're gonna make it

do you understand the way it works?
do you want to take as much as you can get?
do you need a little push?
do you try to change?

you're running out of time
and I don't see a change in you
and I don't think you're gonna make it

we're running out of time and there aren't many changes made
and I don't think were going to make it
we're running out of time and there aren't many changes made
and I don't think were going to make it

well, what do you think?
yeah, that's what I thought
