

## Right As Rain

Face to Face

Right as rain, right as rain  
You just kicked me in the teeth again  
Pushed away my only friends  
And in the end we'll still be right as rain

I was behind you  
Tried like hell to find you  
We were lost and never wanted to be found  
I was so blind then  
Left it all behind when  
You said you would never kick me to the curb  
I'm leaving but I just can't find the words

Right as rain, aright as rain  
I'm here beaten up and broken down again  
Right as rain, right as rain  
You just kicked me in the teeth again  
Pushed away my only friends  
And in the end we'll still be right as rain

I'm nothing like you  
But I can't deny you  
And I feel like I'm stuck inside looking out  
I tried to push back  
Got myself on the wrong track  
It felt like anything was better than this mess  
You couldn't care about me any less

Right as rain, aright as rain  
I'm here beaten up and broken down again  
Right as rain, right as rain  
You just kicked me in the teeth again  
Pushed away my only friends  
And in the end we'll still be right as rain

Since you're not with me  
A sinking feeling inside of me  
I tell myself I'm better off somehow  
But I know you'll find me  
And someday you'll remind me  
Sometimes it's easier to give up than give in  
And you'll be there to meet me in the end

Right as rain, aright as rain  
I'm here beaten up and broken down again  
Right as rain, right as rain  
You just kicked me in the teeth again  
Pushed away my only friends  
And in the end we'll still be right as rain
