

## Bringer Of Death

Facebreaker

Caressed by the dark side  
No remorse for my chosen path  
Not fearing the band of my reaper  
Not fearing my evil mind  
With me,eternity ends  
I'm the ruler of life  
I'm the bringer of death  
I have been since the dawn of time  
Not always me,but always the same  
You-can't bring me to an early grave  
I-begotten not of blood  
You-can't bring me to an early grave  
I-will take you to your maker  
Bewitched from my birth  
Reborn again and again  
Created to change the world  
Created from torment  
With me,it all dies  
With me,eternity ends  
My creation,a dark world  
My creation,an evil race
