

A species of self-destruction  
Not build to last  
Like vampires sucking each other's blood  
Spreading the deception vast  
Burning their fingers  
On the fire that keeps them alive  
Like leeches floating in blood  
Addicted to the addiction  
Believe the lies, like cancer in your eyes  
Spreading the detesting infliction

Human spoil-driving the spikes into the coffin of man  
This rollen evil-a stillborn race not to see they're damned

You go around wondering, what to die from  
Guierl the needle with the drugs of life,  
And get the biller taste of mass hypnosia.  
Like immortality through suicide  
Like leeches floating in blood  
Addicted to the addiction  
Believe the lies, like cancer in your eyes  
Spreading the detesting infliction

Human spoil-driving the spikes into the coffin of man  
This rollen evil-a stillborn race not to see they're damned  
Human spoil-driving the spikes into the coffin of man  
This rollen evil-a stillborn race not to see they're damned  
Not to see they're damned...

Human spoil-driving the spikes into the coffin of man  
This rollen evil-a stillborn race not to see they're damned  
Human spoil-driving the spikes into the coffin of man  
This rollen evil-a stillborn race not to see they're damned
