

God split me in two
My eyes are now dropped down
Now try to bring them back
But I failed you
I am who I am
Me and me
Eyes turned down
Dead leaves fall down
Making a familiar sound
Let me talk some more
Lucky the warmth still remains

As long as you are by my side
I won't think about to fade away

I need to finish something
I'll fix the broken glass into new for you
Feeling your eyes
Looking at the melted sky of tomorrow
Taking all the distorted darkness of me
That's painted black and white
Denied it but you know if from afar
A lie I see beyond the shore over there
There is nothing say anymore

As long as you are by my side
I won't think about to fade away

I'm doing ok don't worry about me
I am on solid footing without you
Days that once were about to stop
Started moving again taking my hand

What you are just looking at is
The antibiotic past it's time
What I was believing
Turned into lies one by one
I can't cope with the time passing by

The poison I swallowed
I feel we can be the one
Yes I think we can be the one

As long as you are by my side
I won't think about to fade away
