

Part Of It All

Fact

With a strange feeling
We took another step forward
It's too unreal
We have the power to make it
No matter how often we fall
No matter how often we step down
Our path leads to that place
Whatever you say

No intention to be left behind
Should've realized that we can't be with you now
Is what you saw today the worst regret?
And are you hearing me now?

Woah it's all worth saving
Cause we are a part of it all
Woah there's no more waiting
Cause you are a part of this all
