

# Polyrhythm Winter

Fact

Look up to the sky above  
And start to count the stars I see  
Don't notice how the time has passed  
And as the sun begins to rise  
The lights I counted disappear  
One by one they're turning on and off!

Am I alone in this? (This)  
Are you the same way? (Way)  
A thousand hopes and dreams (Hopes and dreams) are hiding far away  
They're locked away tonight (Night)  
And in my hand's the key (Key)  
I want to give to you (Give to you) to show you the real me (This is me)

Just like you went out of my life  
So does all you left behind

Cut through all the mist to be  
Right there with you next to me  
On stars we'll make a wish and see  
(Cut through) all the mist to be  
(Right there) with you next to me  
On stars we'll make a wish and see  
(On stars we'll make a wish and see)

Look up to the sky above  
And start to count the stars I see  
Don't notice how the time has passed  
And as the sun begins to rise  
The lights I counted disappear  
One by one they're turning on and off  
Look up to the sky above  
And start to count the stars I see  
Don't notice how the time has passed  
And as the sun begins to rise  
The lights I counted disappear  
One by one they're turning on and off

Your scent fades away (Your scent fades away)  
Alone with you lies (Alone with your lies)  
I'm left with nothing

Darker clouds around my heart  
Making it so hard to see  
And I can feel that it's starting to snow  
Snowflakes they hide the stars  
So many I'm losing count  
I figured out it's not meant to be  
(You went out of my life)  
Darker clouds around my heart  
Making it so hard to see  
And I can feel that it's starting to snow  
Snowflakes they hide the stars  
So many I'm losing count  
I figured out it's not meant to be

Meant to be (You went out of my life)

Meant to be (You went out of my life)  
Meant to be (You went out of my life)  
Meant to be (You went out of my life)

(You went out of my life)
