

Silent Night

Fact

Silent night, violent night
Nothing's calm, only hate
Tears for yourself
All my feelings dissapear and die
Sleep in heavenly peace

I will tear them out from you,
All the feelings I have lost
By this act we have become one
Open up your eyes bitch
By this act we have become one
Now the time has arrived

I feel we must separate
For all we used to be, this is the end
And if we ever meet again
I can give it back to you

Silent night, violent night
Nothing's calm, only hate
Tears for yourself return to the ground
